

**Not using cMOS, CCD Camera & lens  
Direct detection by big sensor itself!**

# Davinch OneSec Western Imaging System

1 sec fast capture

High distinguish weak band,  
although closer strong signal

Many samples once detection

Cooling big sensor  
make a noise deduction

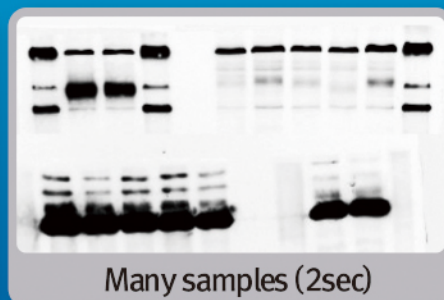

No affected auto contrast for weak

Cat No. OSW-24

1 sec Exposure

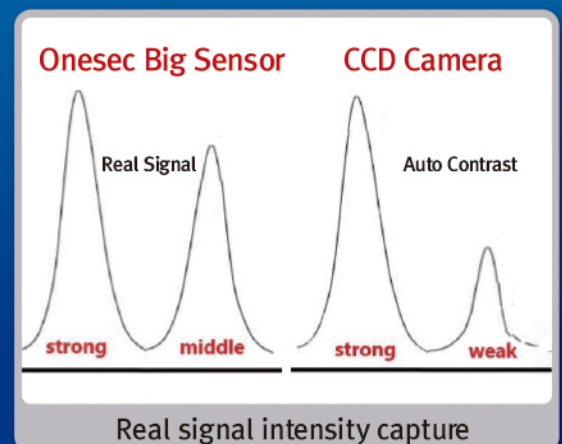

Many samples (2sec)

1 sec Exposure

## [ Cat No. OSW-24 Specification ]

- 1 sec capture and possible many step exposure
- Big sensor size 180mm x 140mm
- Cooling system make a noise deduction
- Perfect darkroom and easy cover door
- Gel analysis function
- Marker capture function
- Computer and program included

Comparison signal detection of camera type's auto contrast and Big sensor detection

made in Korea
